Circular

Dear RS/BS/All ATCOs

As we were expecting a proper suspension order for BA test for ATCOs but DGCA has disappointed us and released a partial respite. I know that you all are eagerly waiting for our next course of action. In present scenario protecting our controllers is prime concern for all of us and the only option left for us now is legal remedy. We urge all the controllers till the time we are not getting any favorable orders from honorable High Court, controllers may follow the orders of DGCA under the precautions/measures mentioned to be taken during BA test. Before going for BA if asked on random basis.

1. Please ask random criteria followed.
2. Insist for the Hygienic conditions specified in DGCA order no 15031/4/2021-DAS dated 27th April 2021.
3. Person doing the test should use PPE Kit.
4. Before every use, BA equipment should be sanitized using UV sterilizers.

I am thankful to my membership for cooperating CEC in the time of crisis.

Regards,

Alok Yadav

(General Secretary)
